Mass Intentions Scheduling & Tracking Software

©2008-2011 Copyright Clar Software Services, LLC. All rights reserved.

The **Mass Intentions Scheduling & Tracking Software (MIST)** enables the **EASY** computer entry, scheduling and tracking of all Mass Intentions at **multiple locations including Parish Clustering**. The paper-based Mass Calendar is replaced by a single, up-to-date, flexible Mass Calendar database that can be shared by all designated staff from their own computers. Intention Requests may be scheduled automatically or manually. **MIST** is the **one and only** full-featured, purpose-built software for managing all of your Mass intention needs.

Please look at a sample of the actual data entry forms and reports by going to the following website:

www.mass-intentions.com/samples.htm

The **price for the software package is \$195.00** for the first user's computer, \$45 for each additional user's computer, and \$45 if you choose a server set up. The purchase price includes your set up and support. And there are no after purchase fees for licensing or support.

Obtain a no obligation full-featured "**demo**" version of the **MIST** software to review on your own computer by going to

www.mass-intentions.com/requestdemo.htm

or by calling 928-541-1287.

The following are highlights of the many features and benefits of **MIST**:

Features:

- Single and multi-user data access.
- Customizable to your needs.
- Organizes all locations, including parish clusters, within one calendar.
- Automatic and manual intention scheduling.
- Multiple intentions per Mass.
- Uses requestor's preferences in intention scheduling: Mass Date & Time, Date, Time, Day, Time & Day, Language, Celebrant or Location and various combinations of these.
- Easy rescheduling and deletion of requests.
- Search on any intention request field.
- Filter intention requests by status: Donation, Scheduling, Notification and Celebration. Print a list.
- Flexible Mass schedule changes.
- Insertion of extra Masses (weddings, funerals, holy days, etc.) as needed and on the fly.
- Handles donations for entities other than intentions, ie Sanctuary Lights, Shrines, Altar Flowers, etc.
- User defined deceased Indicators or as you specify.
- Instantly print an intention confirmation.
- User defined (up to 3) languages for mail and email notification templates.
- Automatic requestor notifications by mail or email.
- Collect donation payment details and issue receipts.
- View and print the Mass Calendar and Intention Requests by dates and with filters.
- Print the weekly Mass schedule and intentions.
- Print total counts & donations for: Beginning of month; received during month; celebrated during month; and waiting to be celebrated at end of month.
- Manage Liturgical Ministries.

Benefits:

- Increased staff productivity.
- Instant intention scheduling & no skipped Masses.
- Automated donation tracking & financial reporting.
- Reduced keying errors & intention request searches.
- Secured parishioner data.
- Professional looking correspondence.
- Multiple language notifications by mail or email.
- Improved parishioner relations & communications.
- Replacement of the paper Mass calendar.
- Access to intention request data at staff's desk.
- Self-maintaining lookup tables to reduce workload and errors.
- Low cost solution without additional hardware/software requirements.
- Customization available at reasonable rates.
- One-time cost without on-going maintenance, support or licensing fees.
